Dear Jeff,

Congratulations. The Tenter and Compactor won a Finalist Award in the IDSA/IDEA Industrial Design Excellence Awards competition. While it did not win one of the top awards, being a Finalist is an honor nonetheless, since only a small percentage of the overall entries were finalists.

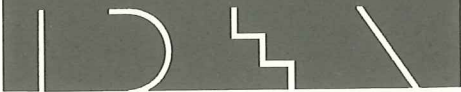

I have enclosed your Award Certificate from IDSA. You can also view the award info at <http://tinyurl.com/2a6lk2k>.

Thank you for giving us the opportunity to work with you on this program, and congratulations!

Sincerely,

Monty Montague
